Remarkable Development Of Canada's Greatest Industry. The Growing Of Wheat

Canada's greatest industrial industry, wheat growing, has developed almost entirely since Confederation. The present generation of Canadians are accustomed to speak of their country as the granary of the world, a phrase which would have been meaningless sixty years ago when Confederation was brought about.

Canadians must look with pride upon the achievement in wheat production of the last sixty years. What it means to the general business and to the transportation of the Dominion needs only to be stated to be understood. Exports of wheat from Canada in the last two years, and these were only average crops, have brought in to this Dominion more than \$175,000,000 annually. This money comes into the possession of the farmers, has been spent on the hundred and one articles which they need, thus stimulating the industrial centres remote from the grain fields and affecting, indirectly, every citizen of the Dominion.

The bulk of Canada's wheat crop is grown in the prairie provinces. Each harvest time the enormous task of transferring this crop from the fields to the consumers in distant countries is undertaken and accomplished. The farmer hauls his wheat to the country elevators, the original gatherer of the crop. There are about 2,500 country elevators in the wheat producing area. The wheat is then loaded into box-cars and is started eastward and westward, as the case may be, to seaboard. If it is westward there is the long rail haul over the Rockies to Vancouver or Prince Rupert, whence it is shipped to Europe through the Panama canal, or to the Far East. In 1924-25, the last crop year for which final figures are available, 23,500,000 bushels went through Pacific Ports. In subsequent years the movement has been greater.

The greater part of the crop comes eastward in box-cars to Port William and Port Arthur, where large terminal grain elevators are located. In 1924-25, the figures are interesting because relatively they change very little from year to year, 159,000,000 bushels came east. All this wheat, whether eastbound or westbound, is inspected by Dominion government inspectors and is graded according to quality.

The grading of wheat in this quantity of itself is a monumental task, achieved first by this Dominion and followed by a few other wheat exporting countries. With the present grading the marketing of Canada's export crop at a fair price would be impossible.

The world's market for wheat is Liverpool, England. Here come buyers and sellers and the grades as in ancient times, for the seller to show a sample of his wheat so that the buyer may see what he is purchasing. Obviously, when production reaches such proportions as it has in Canada this no longer can be done. The Canadian government solved the difficulty by establishing a grading system. Canadian wheat is graded under well-defined regulations and any buyer in the world may buy the quality of wheat he desires by grade. The quality is guaranteed and in many years of experience foreign buyers have not yet complained.

Having reached Port William and Port Arthur, the mass movement of the crop is at end. From these ports it breaks into a score of channels all of them moving eastward towards the ocean. The grain fleets come to the head of the lakes for their cargoes. The wheat is loaded into these steamers and some of their sail the Georgian Bay ports, others to Port McNicoll, still others to Port Colborne, nearly to Buffalo, and a few go right through to Montreal.

First Universal Language

Volapuk was the name given to what was intended by its author, Johann Schleyer, a teacher in Switzer-land, to be a universal language. For some time after his invention in 1879, it flourished exceedingly, but then it languished, and its place is now taken by Esperanto, proposed by Dr. Zamenhof, of Warsaw, Poland, in 1887.

W. N. U. 1684

British Colonial Empire

Colonies and Protectorates Have Population of Fifty Million

That the extent of the British Colonial Empire—that portion composed of colonies and protectorates, etc.—is roughly two million square miles with a population of 50,000,000, was the interesting statement in the report of the committee appointed by the present colonial conference to frame a scheme based on contributions to a common pool, for the creation of a scientific and research service. This service should be available to the whole Colonial Empire.

The committee, in view of the short time available, decided to restrict the inquiry to medicine, agriculture, veterinary science and forestry.

The conference of governors recently approved the scheme set out in the report and requested the Colonial office to appoint a committee to work out a detailed scheme for submission to all the Governments concerned. The conference was of the opinion that the scheme could be commenced on an income of about \$35,000 yearly, of which a considerable portion would be used in replacing existing expenditures on salaries of agricultural research officers.

Braid Trimming is Smart

This attractive dress has the much desired slender lines and is a style suitable for all daytime wear. The front and back are quite plain and the plaited side-sections give added width and grace to the skirt. Braid is effectively used on the bodice to form a deep pointed yoke, and also trims the convertible collar, the cuffs finishing the long darts of the sleeves, and sides. No. 1522 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 4 1/2 yards 36-inch material, or 3 1/2 yards 54-inch, and 7 yards trimming braid. Price 20 cents the pattern.

Many styles of smart apparel may be found in our Fashion Book. Our designs originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

Canada Prefers British Settlers

But Only Limited Number of Right Class Are Available

"The importance of applying policies providing Canada with men-power, without introducing unemployment but rather increasing the demand for labor, must be emphasized, with the necessity of preventing the admission of undesirable emigrants," Hon. Robert Burke, Canadian Minister of Immigration, declared in London while discussing Canada's immigration problems with newspapermen. "Canada's immigration activities are therefore both positive and negative," he added.

Shortly after his arrival with W. J. Egan, Deputy Minister of Mr. Burke's department, the Minister received about 30 journalists at his hotel and, after reading a written statement he had prepared, answered their questions.

"Canada has adopted the policy," he said, "of encouraging farm laborers and household workers. In recognition of the strong British strain in the national fabric, special emphasis is laid upon immigration from the British Isles. Courageous steps have been taken to relieve the British settlers of the handicap of high ocean rates. The fact that only a limited number from the classes mentioned are available from the British Isles necessarily broadens the field to include the United States and European countries from which suitable settlers may be secured."

Danish Government May Aid Immigration

Country is Fertile Field for Recruiting New Canadians

Conducting a party of 55 Danish settlers, who reached Montreal on the White Star liner, Doric, to points in eastern Canada, Lorenz W. Saa, travelling inspector for steamship companies in Denmark, declared that Denmark was a fertile field for recruiting Canadian immigrants.

Considerable unemployment prevails there. The chief drawback to a larger influx is lack of money. In this connection, however, said Mr. Saa, the Danish government is considering ways and means of meeting this difficulty and is studying a plan practised by the Norwegian government where, by prospective emigrants are furnished with sufficient funds and given easy terms in the matter of repayment.

Out of Everything

If you haven't an automobile you are out of everything, including debt. If a friend presents you with a watermelon, you can't get it home conveniently. If you wish to go anywhere not on a railroad or street car line, you must call a taxi, or depend upon a friend who owns a car, and you and your car-owning friends are seldom interested in going to the same place. If you walk you may be run over.

Marriage to a woman means a lifetime job as a detective.

Canada Is Reaching Out With An Ambitious Program Concerning Aerial Navigation

International Stock Show

A Carload of Bacon Hogs From Manitoba Will Be Exhibited

A carload of bacon hogs will be included in Manitoba's exhibit at the International stock show in Chicago this coming fall. J. E. Ritchie, manager of the Provincial Fair, has returned from a meeting of the Manitoba Livestock Board, where provincial plans were laid. The bacon hog exhibit on such a scale will be the first step by Manitoba to gain recognition for that particular type of animal raised in the province. Three carloads of hogs and two of cattle will be sent by the province to Toronto and elsewhere, a portion going on to Chicago. The sheep men will have a worthy exhibit for Toronto, Guelph, Ottawa and other centres.

To Buy Canadian Cattle

Association Formed in South Wales For Direct Importation

The Canadian trade commissioner at Bristol, England, reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, who during April filed a copy of their prospectus. The chief purpose of this co-operative movement is the direct importation of Canadian store and fat cattle, and to this end a central Canadian purchasing organization has been established. The new association represents nineteen small traders' associations throughout South Wales and Monmouthshire and the capital is approximately \$30,000.

Nebraska Farmers Coming

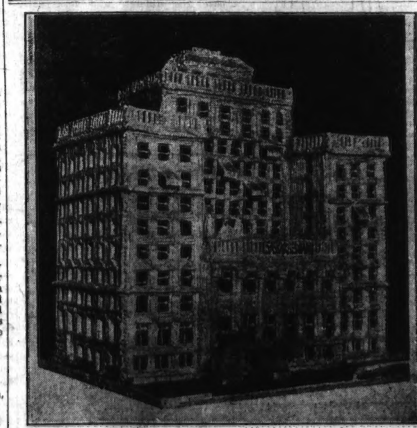

Advance Agents Seeking Suitable Tracts of Land in Alberta

Representing fifty Nebraska families who wish to settle on Canadian farms, Frank Stewart, of North Platte, Nebr., headed a delegation of three who have been conferring with C. A. Van Stow, superintendent of colonization for the Canadian Pacific Railway. The land seekers will go to Calgary with a representative of the colonization department to inspect suitable tracts in Alberta. The group proposing to emigrate has ample capital. It is said.

To Improve Highways

Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

You can't believe everything a woman says who compliments another upon her beauty.

There are various mediums of art, this photograph being an example of the clever use of sugar by the veteran pastry chef of Chateau Lake Louise, John Meyer. It is a true copy of the new Hotel Saskatchewan, Regina, 28 1/2 ft. inches, weighing 80 pounds, of glistering white sugar. Mr. Meyer did all the work on the candy structure himself, the masterpiece occupying his time for ten days. The candy copy of the new hotel was taken to Regina for the opening on May 24th.

In this year of Jubilee Canada is reaching out with an ambitious program of aerial navigation which the most imaginative of the Fathers of Confederation never entertained even in their wildest dreams.

Flying in Canada was born of war, and in these later days of peace the conquest of the air goes on apace. During the war flying was a young man's game, and the youth of Canada now renova with machine-guns hissing from the cockpits, propellers roaring, and bombs away from the under-carriages. It was grim business but it proved the sporting blood of a young nation.

Peace, came and these young men who rode the whirlwind returned to Canada to earn their living as civilians. But the spirit of war-airwork survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on. The young aviators, trained in war days looked to the civil departments of government for employment. They were needed and within two or three years of the close of the war many of them were in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and mapping out by photography the vast areas of the hinterlands.

Civil flying soon pushed its way to the front during the post-war years, and the government of Canada was quick to establish the necessary code of laws for aerial navigation. The administration of these regulations was given to a branch of the Royal Canadian Air Force, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbours, international flying signals, and the inspection of air craft.

The most conspicuous work done during these recent crowded years of flying history in Canada has been the survey work in which the Dominion has led the world. Other countries have put on spectacular flights of astonishing endurance, but Canada's contribution has been along sound commercial lines. In 1926, 56,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done by ground work.

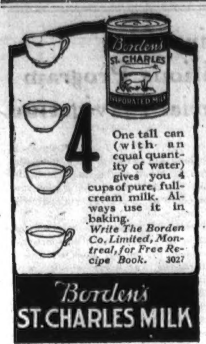

The year 1927 has brought a practical acknowledgment by parliament of this valuable work. Since the war Canada has never spent more than \$1,500,000 a year for air development. This year, when the \$1,000,000 was voted by parliament for the Royal Canadian Air Force to be divided between military and civil flying. Cities are being encouraged to set aside land for future air harbours, technical advisers from Great Britain are visiting the Dominion to make recommendations for the future linking of the Empire by airways, and the Post Office Department is taking the initial steps towards what will be an Atlantic to Pacific air mail route. Canada's future in the air is assured. So certain is the Canadian Government of the development to come that at the Imperial Conference of 1928, Canada pledged herself to the erection of a great moving mast which will be one of the air ports for the vast dirigibles being built in England to cruise the world through the Empire's skyways.

Wild Horses Are Worthless

Hundred Dollars Highest Bid Recently in B.C. for Eighteen Head

Hunters in the interior of British Columbia are expected to turn in 1,000 sets of ears from wild horses they will have killed on the range this year. For these they will get a bounty of \$1.50 per set from the provincial department of lands and forests. The horses are practically worthless, \$100 being the highest bid received for a corralled 18 head rounded up recently at Springhouse, one of which was a four-year-old stallion weighing only 400 pounds.

In Great Britain the feet are used as an aid to identification and it has been shown that the inhabitants of London have long since lost those of Wales, for in the arch, and those of Scotland, broad in the sole.

Borden's ST. CHARLES MILK

One tall can (with an equal quantity of water) gives you a cup of pure, full-cream milk. Always use it in baking.

Observing Diamond Jubilee

Large Attendance Expected at Service in Westminster Abbey

Preparations are now well advanced for the great service in Westminster Abbey, July 1, which will form the chief commemoration in London of Canada's Diamond Jubilee. The Dean of Westminster, Very Rev. Dr. Foxley Norris, has drawn up an order of service which follows as nearly as possible that which was used when the jubilee of Confederation was commemorated in the Abbey in 1917.

Owing to the King and Queen having a number of engagements to fill in Scotland so close to the date, it is feared it will be impossible for Their Majesties to attend the service. The Duke of Connaught already has intimated his intention to be present. Practically the whole of the British cabinet and a large number of representatives of embassies and legations have asked that seats be reserved for them.

New Use For Helium

May be Substituted for Nitrogen in Air of Diving Bells

When helium was first discovered it was considered a sort of scientific toy, and was obtainable only in extremely small quantities. Then it was produced in quantity sufficient to take the place of hydrogen in airships. Experiments are now in progress to substitute it for nitrogen in the air of diving bells, for the nitrogen under high pressure enters the tissues of the bodies of the divers, and when it escapes during the ascent causes severe lacerations. The discovery has an economic value for with helium it will be possible for divers to descend to the bottom of the Bay of Vigo and secure millions of gold from sunken Spanish galleons.

Fashion

Some time ago the people of Colorado Springs got the idea that there were great attractions in that place for tourists. Following up this bright idea they made spasmodic efforts for several seasons to attract visitors, but without much success. So they decided to appropriate \$14,000 for advertising. This helped, and the next year they increased the sum to \$60,000. They advertised chiefly in newspapers, all over the country. Over \$8,000 autos visited Colorado Springs last year, carrying some 350,000 people. More than 90,000 more people came by train. These visitors spent about \$10,000,000 in the Colorado Springs neighborhood. Not a bad return for a \$60,000 investment! Where there is no publicity the enterprise perishes. If there is something really worth while advertising of the right sort will make a great success of it.

The Oil for the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

British Capital Interested

Campbell Hunter, O.B.E., well known geologist and oil expert, accompanied by C. L. Fisher, representing British capital, is investigating the Wainwright and Hibernia oil fields. The Turner Valley will also be visited.

SUNDAY SCHOOL LESSON

JUNE 13

PETER DELIVERED FROM PRISON

Golden Text: "Many are the afflictions of the righteous; But Jehovah delivereth him out of them all."—Psalm 34:19.

Lesson: Acts 12:1-17.

Devotional Reading: Psalm 34:1-8.

Explanations and Comments

1. Peter imprisoned, verses 1-4.—Peter, James and John were the three prominent men among the apostles, and Herod Agrippa I. began his persecution of the followers of Christ by having James beheaded. Finding that this did not please the Jews, he selected Peter as his next victim and had him imprisoned to await his execution after the close of the Passover. Executions were not carried out during the Passover, and Herod was nominally a Jew and most careful in all Jewish observances. Peter was guarded in prison by four quarters of soldiers, four sets of men, one set for each watch, two of whom were chained to Peter in his cell, and two were on guard outside, verse 6.

"When a man finds that a certain course of conduct is receiving popular applause he is led on to further excesses. A public speaker descends to a coarser and vulgar jest, and because it pleases the baser sort in the audience, and the speaker is awarded a round of applause, he is prone to descend to still farther depths of degradation."—Dr. J. H. Jowett.

11. Peter's deliverance, verses 5-17. Peter in prison, but prayer was made earnestly of the church unto God for him.

"I wish I could burn these two words, unto God, into every heart, so that whenever we pray, in public or private, the words should ring before us; and that before we prayed a syllable of prayer we would be sure every time that we had really come into the presence of God and were actually talking to him."—R. A. Horner.

At night, shortly before he would have been brought forth for trial and death, help came. "There is the enemy plotting, there are the friends praying; and the man himself around whom all the menace and the intercession are gathering has shut his eyes and quieted himself to slumber, because there, too, is he neither slumbereth nor sleepeth. God is there in the palace, there in the house of prayer, there in the prison, keeping all the threads of the drama in his own hands; holding the tyrant's position, the tyrant's power, the tyrant's escape."—Robert Law.

The circumstances of Peter's escape are told very minutely— "the crying of the angel (the word angel means messenger), the light in the cell that awakened Peter, the brief words to make haste, the falling off the chains, the girding and putting on of sandals and outer cloak, the command to follow, the passing of the first and second guard, the opening of the outer gates of the prison leading into the city, the point out and passing of the third and fourth guard, and the being left alone."

Peter was dazed and thought his experience strange until he "came to himself" and said, "The Lord hath sent His angel and delivered me out of the hand of Herod." One thing is certain, whoever delivers us from a great peril will always seem to us an angel.

"There are no bells and there are no bars which can withstand the purposes of God."

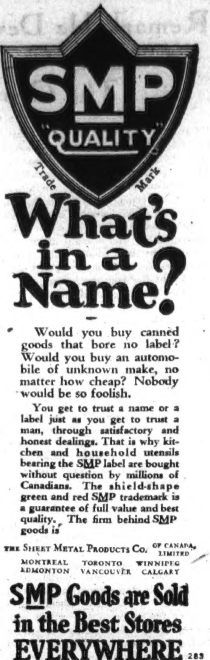

Shipping Salmon Eggs

The Largest Consignment Ever Made in Canada

The largest single consignment of salmon eggs ever shipped in Canada was that made by officers of the Fish Culture Service of the Department of Marine and Fisheries to the upper waters of the Fraser River in British Columbia. Fifteen million sockeye eggs in the "eyed" stage, were transferred in specially constructed crates from the Dominion Government's fish hatchery at Kamerton on the Fraser River below Hell's Gate Canyon to the following spawning grounds in the upper Fraser: Stuart Lake, Francois Lake and the Quessan Lakes.

Fish Farm Mine

The \$750,000 concentration plant at the Fish Farm mine in Northern Manitoba has begun operations and 20,000,000 tons of ore have already been blocked out, according to the Winnipeg Board of Trade, which is actively supporting the construction of a railway into this area.

SMP QUALITY

What's in a Name?

Would you buy canned goods that bore no label? Would you buy an automobile of unknown make, no matter how cheap? Nobody would be so foolish.

You get to trust a name or a label just as you get to trust a man, through satisfactory and honest dealings. That is why kitchen and household utensils bearing the SMP label are bought without question by millions of Canadians. Saskatchewan Egg Pool

Farmers' Wives Constitute the Board of Directors

The women of Saskatchewan are winning their spurs in the egg and poultry field. At the first annual meeting of the Saskatchewan Egg and Poultry Pool, the directors of which, all but one, are wives of farmers, the report of the year's business showed a turnover of \$537,117. The Pool began business at the end of March, 1926. During the year it handled 1,199,847 dozen eggs and 10,000 lbs. of poultry. At the close of the year the pool had paid-up share capital amounting to \$12,574 and a reserve of \$7,706. The membership is approximately 15,000.

Soldier Settler Lands

Movement Started for Re-valuation of Holdings in Saskatchewan

Machinery for the re-valuation of soldier settler lands throughout the west, long awaited, was set in motion for Saskatchewan when the start was made in the Regina office of the board to send 3,500 letters to soldier settlers. With the letters went forms of application for re-valuation and these must be filled in by the settlers and returned to the board by October 1st.

Vancouver Island Mines

The LadySmith Island is to be taken over and equipped with modern machinery to treat ores of the mines of Vancouver Island. It is expected this will mean a marked revival of operations of many old, low-grade ore properties.

Insect Bites.

Minard's takes the itch out of mosquito and fly bites. Draws the poison.

NEW U.S. ENVOY IS PRESENTED TO LORD WILLINGDON

Ottawa. — Hon. William Phillips, first United States minister to Canada, formally presented his letter of credence to His Excellency the Governor-General, Mr. Phillips was presented to His Excellency by Dr. O. D. Skelton, under secretary of external affairs for Canada.

"My government looks," said Mr. Phillips, "in the establishment of my mission, to strengthen the cordial sentiments which have ever animated the people of Canada and the United States, confident that their association in everything that touches peaceful and orderly progress will bring new benefits to both." And these cordial words found echo both in the letter of credence from President Coolidge and in the reply of Viscount Willingdon, Governor-General. President Coolidge observed that Mr. Phillips is well informed of the desire of the United States government to cultivate to the fullest extent the friendship which has so long existed between Your Majesty's Dominion of Canada and this country.

"I am very sensible," said Viscount Willingdon in reply, "of the remarks to which you have given expression with regard to the cordial and friendly relations which have long existed between our two countries, and can assure you that both I and my government will give you every assistance in promoting our mutual progress and prosperity. We, in Canada, recognize the many advantages we have obtained from the fact that we live in close association with a great and powerful neighbor and trust that these relations may be confirmed and strengthened during your term of service amongst us."

International Bridge Opened For Traffic

Formal Dedication of Peace Span Takes Place in September
Buffalo, N.Y. — The new international peace bridge spanning the Niagara River, between Buffalo and Fort Erie, Ont., was opened to traffic June 1 with simple ceremonies of the two countries which it connects.

Promptly at the time set for the opening, automobiles containing officials of the bridge company and Buffalo public officials led by Mayor Frank K. Schwab, left the United States end of the structure for the Canadian side. There, they circled around the peace bridge plaza, picked up Canadian officials headed by Reeve Louis Douglas, of Fort Erie, and returned to the American side. The ceremony and speech making continued until 11 o'clock. That will come probably in September when at the formal dedication of the \$4,500,000 span, high officials of the Canadian and United States governments will take part. President Coolidge has been invited to open the ceremony, except the attendance of the Prince of Wales and Premier Baldwin of Great Britain as well as Canadian executives.

To Represent King at Service
London. — Their Majesties the King and Queen will be represented by the Duke of Connaught, at the great service in Westminster Abbey, on July 1, in celebration of the Diamond Jubilee of the Canadian Confederation, the Canadian Press is officially informed. Their Majesties will not be able to attend the service as they will be engaged in Scotland at that time.

Premier of B.C. Recovering
Hamilton, Ont. — Hon. John Oliver, Premier of British Columbia, who was convalescing at the home of his son here for some time following an operation he underwent at Hotchkiss, Minn., has so far recovered that he left on an automobile trip to Gray County to visit relatives.

Plan Big Elevator
Vancouver, B.C. — The Province says: "Construction of a 1,500,000 bushel grain elevator to cost approximately \$2,000,000 will be commenced here shortly by the Alberta Wheat pool, according to announcement from Calgary."

W. N. U. 1684

For a Better Understanding

Appreciation of Needs of All Parts of Canada Required Says Beatty

Vancouver. — In this year which we celebrate the Diamond Jubilee of the Confederation of Canada, our greatest contribution to the memory of those courageous Fathers of Confederation should be a greater understanding of the needs of those portions of the country in which we ourselves do not live," said E. W. Beatty, president and chairman of the Canadian Pacific Railway in an address given at a combined luncheon of the Canadian Club and the Vancouver Board of Trade.

"National characteristics are backed by greater resources heretofore undeveloped," said Mr. Beatty. "The first is the tremendous area of agricultural lands producing the finest wheat in the world, and not less important vast areas of equally good arable land as yet untouched by the plow."

"It is estimated, in fact," continued Mr. Beatty, "that only from one twelfth to one eighth of the country's agricultural lands have as yet been cultivated. The second is its also unlimited water powers. I repeat if there is any other country in the world so plentifully supplied with power development as in Canada, and every one realizes what that means as a factor in industrial expansion."

"The third is its forest wealth, which already has enabled it to conduct lumbering operations, the annual output of which exceeds \$145,000,000 and to produce pulp and paper to the value of \$200,000,000. When there are its mineral possibilities, the possibilities of which are very great enabling it to produce gold, silver, nickel, zinc, lead and copper to an aggregate value in 1925 of \$113,000,000."

U.S. Pilot Lost Bearings

Went 145 Miles off Route Between Montreal and Ottawa

Ottawa. — After being in the air for five and one quarter hours having lost his bearings and gone more than one hundred miles off his route, Captain R. G. Hoyt, piloting a United States army mail plane, landed at Ottawa. In leaving Montreal, the aviator mistook the St. Lawrence River for the Ottawa River, he said, and after following the former stream for some hours, came to earth to regain his bearings and discovered he was 145 miles off his route. The final landing in the capital airport proved disastrous. The field adjoining the Dominion Experimental Farm on which the plane came to earth was rough of surface and in landing down the plane suffered considerable wing and badly crumpled landing gear. Both Captain Hoyt and Sergeant B. D. Booser, who accompanied him, escaped injury, however.

Cut Off Date for Pool Wheat

Regina, Sask. — The directors of the Saskatchewan Wheat Pool have set July 15 as the cutoff date for the 1926-27 crop. It was officially announced. All street grain delivered and settled for by cash ticket on or before July 15 will be included in the 1926-27 pool. For carlot grain all grain not loaded out by July 15 will be carried over into the 1927-28 pool.

Ramsay MacDonald Will Take Rest

London. — James Ramsay MacDonald's doctors have ordered him to abstain from all active political work for a month. The former Labor Premier is still feeling the effects of the illness which confined him to a hospital during his recent visit to the United States and will go to Scotland for a rest.

British Discontinue Convoys

London. — The Admiralty has issued a communique stating that the British naval authorities in China were discontinuing the convoy of merchant ships as firing on steamers in the Yangtze river had ceased. Destroyers will be held in readiness, however, to deal with possible recurrence of firing.

Plans Ottawa-London Flight

Ottawa, Ontario. — Captain E. E. Janney, 34-year-old Canadian flyer, has announced definitely that he would fly from Ottawa on the morning of June 30 next in his proposed nonstop flight to London, England, to celebrate Canada's jubilee celebration.

WAR GESTURE IN RUSSIA FOLLOWS RAID IN LONDON

Moscow. — An appeal has been addressed by the central committee of all the Russian communist party organizations, declaring that the rupture of Anglo-Soviet relations is unquestionably a step towards war against the Union.

The rupture is further described as the culminating point in a long game of British diplomacy, inspiring and organizing an imperialist onslaught on the Soviet Union. It is emphasized that the Soviet Union has pursued and is pursuing a policy of peace, and that everything possible has been and is being done for the preservation of peace, despite provocations.

The appeal says that war may be forced on Russia, in spite of its efforts for peace, and calls on all members of the party and all toilers to pay the closest attention to questions concerning the economic strength and defence of the country.

Getting Branch Line Work Under Way

C.N.R. Anxious to Have Lines Completed Says Vice-President

Winnipeg. — "We are forging ahead with the branch lines," said S. J. Hungerford, vice-president in charge of operating of the Canadian National Railways, who arrived in the city from Montreal.

"As quickly as the contracts can be let, the work is getting under way," he added.

The system was anxious to get the lines completed and serving the public as soon as possible, he said, and a good deal of the work would be done this year. Mr. Hungerford was not prepared to say anything regarding new development, and knew nothing of any projected lines into Manitoba's central mining areas.

The vice-president was here on one of his periodical trips for conference with western region officials.

A Giant Photograph

New York. — A giant photograph of 22,000 square miles of Newfoundland is to be taken from the air and placed together in the most thorough search yet to be undertaken for the missing French aviators, Ungersma and Coll. It is believed this photograph will definitely establish whether or not the crew of France's White Bird succeeded in crossing the ocean and went down in Newfoundland.

Princess Mary Christens Ship

London. — Princess Mary christened the Canberra which was launched on the Clyde in the presence of a large gathering and a considerable number of thousands. The Canberra, named after Australia's new capital, is the second battle cruiser built on the Clyde for Australia in a few months. The first cruiser is now being fitted out.

Delightful Holiday Location

Algonquin Park, in Ontario, is one of the Dominion's charming holiday spots, particularly for the summer months. Here a canoeist is shown making his way through the passage which leads into St. Andrew's Lake, one of the beauty spots of this delightful holiday resort. — Canadian National Railways photograph.

Appeals to United Canada

Should Keep Soviet Agents Out Says Sir Henry Thornton

St. Thomas, Ont. — Sir Henry Thornton, president and chairman of the Canadian National Railways, in the course of an address before the business men of this city, suggested that agents of Soviet Russia should steer clear of this country and permit Canadians to build a united, contented and prosperous dominion.

"This nation is founded upon the fine traditions of the Anglo-Saxon race; its jurisprudence embraces the fine principles of the English law and fair play," Sir Henry said. "We are essentially a law-abiding people, and we want no element to come in and disturb that condition."

"Whatever others may think about other forms of government and about visionary schemes of society, it may conservatively be described as distinct and unique and if any communist wants to come here and route the slaves, we should inform them that we can do the waking of these slaves ourselves."

Reach Amicable Settlement

Britain Waives Claims for Detention of Shipping During War

Washington. — Claims of the British Government and its nationals against the United States for seizure and detention of shipping during the world war have been waived by Great Britain. It was disclosed with publication of notes ratifying an agreement reached two weeks ago.

In return the United States Government agrees to employ the money thus saved to pay claims of Americans against the British which might fall of settlement in the British courts but which the United States Government regards as meritorious.

British claims which the United States Government has recognized as just are understood to total approximately \$1,000,000, with others for which liability has not been conceded reaching a higher figure.

Manxmen to Celebrate

Possibilities of Increased Immigration to Canada Will Be Discussed

New York. — Five hundred Manxmen residing in Canada and the United States sailed from Montreal June 3, for a four weeks home-going celebration on their native soil, the Isle of Man, famous for its tailless cats and ancient for its self government. Possibilities of increasing Manx immigration to Canada and the United States will be among subjects to be brought up at the celebration on the island.

Many Settlers Reached Winnipeg

Winnipeg. — A youthful party of 16 Scotch boys from the hills and glens of Scotland and from the industrial centre of Glasgow, have arrived in Winnipeg seeking jobs and farm locations on the prairies. With this party two boys from Britain and two Irish families who will settle on the prairies as soon as they can find a satisfactory place. Other arrivals were Poles, Russians, Hungarians, Czech-Slovakians, Rumanians and Swedes.

FOREIGN POWERS SENDING TROOPS TOWARDS PEKING

Peking. — The movement of the Nationalists on Peking, ancient capital of China, and the strategic retreat of Chang Tso-Lin, Manchurian war lord, under whose regime foreigners in the Peking district have been protected, has caused an ominous rumbling in the Chinese imbroglio. The powers are expected to concentrate allied forces for protective purposes in the threatened area.

Japan has landed 2,000 troops at Tientsin, ready to advance to Tientsin, capital of Shanung province, along the Shantung Railway, which Japan surrendered to China at the Washington conference. This advance, it is stated, will be made only if Japanese interests require protection. There are also indications from Tokyo that 2,000 additional troops will be despatched to Peking and Tientsin if needed.

Great Britain is ready to despatch at least a battalion to Tientsin from Shanghai, and it is understood the border regiment has been selected.

The United States is moving between 4,000 and 5,000 marines from Shanghai and the Philippines to Tientsin to meet any emergency that may arise.

Practically all missionaries in the northern inland states were evacuated to the coast early in April, and a large proportion of the women and children in Peking left either for the coast or for Japan at the same time.

The Japanese expedition is adversely criticized by all factions of Chinese here, who see no even less justification than the British expedition to Shanghai.

Canadian Minister Welcomed in Kentucky

Addressed English-Speaking Union on "Exploits of Neighborness"

Louisville, Ky. — The Union Jack and the Stars and Stripes, politely fraternized over the heads of 150 members of the Kentucky branch of the English-speaking Union, while Hon. Vincent Massey, Canadian minister to the United States, spoke on "Exploits of Neighborness."

"I am glad English-speaking folk are learning that we may be good patriots and good neighbors at the same time," he said. He praised the English-speaking Union for its work in promoting comradeship and good feeling between peoples and paid a tribute to the Kentucky branch.

Judge R. W. Bingham, honorary president of the Kentucky organization, presided at the luncheon. He characterized England as the "most important entity in the world."

"By England," he said, "I do not mean a small island off the coast of Europe. I refer to the state of mind of the English-speaking people throughout the world who have wrought for themselves a condition of religious, political and social freedom without losing that supporting attitude toward her which is the characteristic of the race."

Increase in Chemical Sales

Ottawa. — Canada's chemical industry recorded an increase of \$7,500,000 in sales during 1926, as compared with the previous year, according to the Dominion Bureau of Statistics. Production by 232 plants was valued at \$120,369,518, as against \$113,000,000 for the previous year.

Approves Cession to Canada

Pavia. — The Senate has adopted the bill, which has already passed the Chamber of Deputies, which approves the cession to the Canadian Government of ground in Vinny Ridge for the erection of a monument to Canadian soldiers killed in the war.

To Develop Mining Area

Winnipeg. — Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

More than 3,000,000 passengers are daily lifted or lowered by lifts in buildings in New York City, according to Popular Mechanics.

Regina's New Hostelry

1. The Library. 2. Tea Room. 3. "Hotel Saskatchewan".

The new hotel was conceived and designed with two considerations always uppermost in the minds of its creators; the maximum of comfort and convenience for its guests and a pleasing architectural effect. With the desired result in mind the architects have developed a design which is singularly pleasing and which will be regarded as one of the most beautiful buildings in Western Canada.

The exterior of the building is designed in Georgian style, the first two storeys above the street being faced with Tyndale stone, quarried near Winnipeg. The main entrance has been treated with Corinthian pilasters.

The Hotel is an eleven-storey building, containing 216 bedrooms with baths, and many beautiful public rooms and administrative offices. Two storeys with space for more guest rooms have been left uncompleted.

One of the most pleasing rooms in the Main Lobby is overlooking the Park. The treatment of this room has a Spanish character, the antique decorated plaster, and large carved fire-place giving it a pleasing effect. The ceiling is heavily beamed and paneled.

The Ball Room, of a George Adams design, is on the first floor, as are also, the Lounge, the Library and the Writing Room.

The mechanical equipment is of the most modern design, all the services being practically self-contained. The hotel has its own refrigeration and electrical generating plants.

Canadian National Sixth Annual Tour To the Pacific Coast

In pursuance of a time honored practice of affording its patrons every facility and convenience tending toward more vacation enjoyment, the Canadian National is operating its sixth annual tour. We firmly believe that this will again prove of the greatest aid and convenience to a host of teachers, as well as to professional men and business men and women, vacationers.

The tour will commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 4th. The party will be personally accompanied by an efficient and experienced representative of the Canadian National.

After stopping at various points of interest, the train will arrive at Prince Rupert on July 9th. At this latter point the party will embark on a palatial steamship for a cruise of 550 miles to the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

This mode of travel has many advantages. In the first place it is planned with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accommodation, meals and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy to the full the scenery and attractions attendant to such tours.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

CHAPTER I.

It all began with the rustle of silk.

When Helmi's Aunt Lili came back to Finland for a visit, after six years of the crowded ways of life in America, the older womenfolk of her family regarded her with mingled feelings of awe, envy and reproach. Her older sister, Helmi's mother, said it was foolishness for a girl who had to earn her money hard, carrying trays, to put it all on her back and wear clothes that only queens should be wearing. At which Aunt Lili laughed, showing her gold teeth, and said it was a matter of principle with her to spend her money so fast that no one could steal it from her. Helmi was the one member of the family who gave the visitor full-hearted and unqualified devotion. She loved the rich sound of her silken skirts, it was so luxurious, so light, it seemed to raise the whole family to a higher social level, and she marvelled how anyone, even her mother, would dare to find fault with this wonderful person who wore silk stockings, had fur on the inside of her coat, and pink ribbons in garments that did not show at all!

Aunt Lili had not spent all her money on her own clothes. To Helmi's mother she had brought purses which closed with a crack. It had a head on one side, and two claws which could be flapped on the other side; gold satin lining; mysterious chambers inside; and better than all was the delicate fur-cure it conveyed regarding women and money. To Helmi's father she brought a silk handkerchief, with welled roses on both sides, a sort of magic handkerchief, for no matter how hard it was squeezed, in one hand it would spring out again without even a wrinkle. To Anna, Helmi's big sister, who had her hair in bangs, she brought a square bottle of powder the color of skin, and a round downy thing to put it on. Helmi used a black sock herself for this purpose, but she said powder-puffs were certainly style in America now. Aunt Lili made many contrasts between America and Finland. "You

work too hard here," she said, "and you never play. We work in America, but we have good times, too. This country is all right for men, but what is there for women but raising children and work? When a woman here is married ten years she is old, and her life is over. It is all just giving in, and giving up for women, at last they give out. I wouldn't live here if you gave me the whole country. I couldn't stand it now after I have seen what a good time American women have!"

Her words, received in silence by the older women and scoffed at by Anna, who was going to be married in the Spring to Emil Saari, who lived near and had built a two-roomed house, found a sympathetic listener in Helmi, who was then thirteen. Her mother and Anna might be content with Finland, but Helmi's eyes had caught the vision of the far country.

Her resolve to see this wonderful country for herself was, definitely taken when she saw the beautiful picture Aunt Lili brought her. It was a colored picture, slender and too and rifling with light and color, called "Aunt's Flower Garden." It showed an old-fashioned garden bursting with roses and hollyhocks and Canterbury bells. Down the brick walk came two lovely ladies, one in a crimson velvet dress, the other one in fairy blue; a little golden-haired girl ahead of them clad in white, carried a green basket brimming with roses.

Helmi believed that this literally and wondered how her Aunt Lili could leave such an enchanted place even to come for a visit to the old home. Aunt Lili had saved soap wrappers to get the picture, and had left it honestly enough in the paste-board roll. In which it came, and where all concerned might see from whence it came. But to Helmi the name carried proof—"Aunt's Flower Garden." It was too thrilling a thought to lose, so she did not ask for confirmation.

Aunt Lili stayed for the Black Ice Skating, and then returned to her adopted country, but the picture she left with Helmi kept the fires of her imagination and desire burning. Brighter still they burned after her mother died and the querulous, scolding grandmother came to direct the house until her son would find a step-mother for his family. Anna had married and entered upon the strenuous program of a baby's year.

With monotonous work and continuous scolding all around her the example of Anna, who was rapidly losing her red cheeks and her light hair, Helmi held to the vision Aunt Lili had given her of the Promised Land. The roses in the picture nodded approval, the Canterbury bells were ringing a welcome, the velvet clad ladies, still sauntering along the garden path, smiled into her eyes and whispered, "Come and be one of us."

"There are great moments in every life. When Aunt Lili sent the money and Helmi, now seventeen, held the letter in her hand, with its mysterious pale blue paper that the postmaster said was money, she was suddenly caught up into another world. Now all things were possible, for here were the wings with which she could fly away! She, too, would come back with silk skirts that crackled like a bag of cabbage, and purses and toys for Anna's children. Granny would be sorry then for the things she had said, but she would tell her that the paid was gone, she was sorry for Granny, who would never, never see Anna."

Helmi made the journey to Saint Paul, Minnesota. It was well that her young heart was fortified by so many pleasant

thoughts upon the way, for bleak disappointment and sorrow were here when she arrived. Aunt Lili, the dashing Aunt Lili, who seemed to defy sorrow and death just as she defied conventions and traditions, lay fighting a losing battle with a pitiless disease, in a cheerless little room in the hotel owned by her husband. Over the bar, in the noisiest room, lay the shadow of the great Aunt Lili, saying just one prayer between her spells of coughing, that she might live until her young niece came and then have breath enough to tell her what she must be told.

Letters took a long time to go to Finland, and although she had written as soon as she knew how serious her condition was, she feared her message might not arrive in time to save Helmi the journey. She must stay alive for Helmi's sake. Helmi had always been her favorite niece, Helmi with her golden hair, and eyes the color of the green brown moss in the bottom of the running purp at home. "Oh, not enough time to see Helmi and tell her things—please—please—God!"

And so the frightened Helmi, who had expected to be met by the Great Person who had brightened her childhood, came into the dark and dreary room, where only vivid spot was the white face on the soiled pillow with its two burning eyes.

"Don't kiss me, Helmi. Ain't it awful? It is a bad thing I have which goes from me. I thought it was just a cold like I often have, but it's worse than that. Anyway, I only wanted to see you and tell you. Don't stay with Mike. He says he will keep you. You do not owe him the money, it was mine. He wants you because you are young and pretty. The girls tell me he's acting bad already, and me not dead so soon. I have money enough to send you back, Helmi, that will be best. You know what I should do if you at home. It might be worse. You will go back, won't you, Helmi?" Helmi fell on her knees beside the bed.

"But isn't it a good country, Aunt Lili, like you said? Can't I get along like you did?" she sobbed. "I can work, Aunt Lili, like you did."

"It's a good country, Helmi," said Aunt Lili when she could speak. "Just like I said, only men are so bad, and it's hard for a young girl alone, and I am so afraid for you. Men just want their own pleasure. Mike was good to me while I could sport around and dance, and while I did not say a cross word to him for what he did to me when they got drunk. He takes their money, Helmi; I can't stand that. I threatened him I'd go and tell, and then he struck me with a chair. He never comes to see me now, Helmi, and he made me take this room above the bar because when people pay for their own pleasure, they pay for their own trouble to sleep. He says, 'You're awake, anyway, with your cough, so what's the odds?' Helmi, men are queer and all for self. The trouble started when my little Helmi was on the way, but her name was for joy. Men do not like kids, they're too much trouble. He was mad and cross at me because I was not smart and was sometimes sick, and when little Helmi came she only lived six days, and he was glad. Then I hated him, Helmi—I hate him now, and an dwas sometimes sick, and when one is going to die, but I cannot help it, Helmi, I wanted to warn you not to get mixed up with men—they break your heart."

(To Be Continued.)

Had All of Them.

A man wearing a worried look went into a shop which advertised a patent exterminator, and asked for a hundredweight.

"Certainly, sir," said the amazed assistant, "but that quantity would be sufficient to destroy all the slugs in the Queen's County."

"I know," said the man, the reply "They are all in my garden."

DODD'S KIDNEY PILLS

ROBT THE PRINCE

Would Circle the Globe

Colossal Number of Papers Printed Every Week on Boulevard Street, London

For many years the "News of the World" has been produced in Boulevard street—a comparatively short thoroughfare leading southwards from Fleet street to the Thames embankment.

Despite its size, Boulevard street produces more newspapers than any other street in the world. If the pages of the papers sent out of this small thoroughfare in a week were placed end to end they would circle the globe.

The vast weekly issue of the "News of the World" would provide a quarter of this belt, for, if the pages were placed end to end, they would make a pathway from London, across the Atlantic, across the United States, and a few hundred miles out into the Pacific Ocean on the way to Japan.

About 25,000,000 newspapers are published in Boulevard street each week, making a breadth-taking total of 1,300,000 copies per annum.

To get the 4,000,000 copies of the machines in time to distribute them over the length and breadth of the British Isles on Saturday morning and over the rest of the world as fast as great fingers can carry them, the huge battery of printing-presses must produce copies of the "News of the World" at the rate of 7,000 per minute, or six inches per second.

Each issue requires 500 tons of white paper, 16,000 lbs. of black ink, and to tie up the parcels, 70 miles of string.

A new building in course of completion will be the most modern in existence.

**NO MEDICINE LIKE
BABY'S OWN TABLETS**

For Either the Newborn Babe or the Growing Child

"There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them."

Concerning the Tablets, Mrs. John Brown, R. M. 1, South Kensington, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make everything else that people are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Grow Tobacco at Coast

Possibilities of Growing Leaf in B.C. to be Tested

Possibilities of the British Columbia coast as the centre of a large tobacco growing industry will be tested out this year as a result of experiments sponsored by T. E. Corry, member of the Provincial Legislature. Seed has been imported and is being grown on two half-acre experimental plots at Saanich. One will be irrigated and the other worked without irrigation to test out the best method of production.

Ease sunburn with Minard's Liment

Blind Girl is Braille Writer

Blindness has given a profession to Claudine Johnson, of Woodward, Oklahoma, who, although born without sight, has in her early twenties become a transcriber for the blind. Recently she was accepted as a transcriber for the National Library for the Blind at Washington, D.C. Various civic organizations have financed her work. Her mother reads the books to her while she punches out the Braille letters on heavy brown paper.

New Ocean Depth Found

A greater ocean depth than heretofore known has been discovered by the cruiser Emden, the German Admiralty announces. On the way from Colobes Island in the Dutch East Indies to Nagasaki, Japan, the Emden measured an ocean depth of 34,416 feet. "What has up to now been thought the greatest depth is 32,544 feet on the eastern coast of Japan."

Little Helps For This Week

I will not leave you comfortless: I will come to you.—John xiv. 18.

But if those human feet have trod All paths of trial, He who knew No sympathy but that of God, Though linked with flesh that craved it too,

Years with us in our needs, our dreams And mindful of our feeble frame, Holds to His heart our throbbing hearts.

With love, that hath no mortal name.

—Margaret J. Preston.

We can never know a sorrow into which the Son of man cannot enter; and we can never understand the depth and preclousness of His sympathy with which to comfort these isolated, in household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so the thought that nothing more is desired.

—Lady Powerscourt, Letters.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when it is used in the household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so the thought that nothing more is desired.

**TO WOMEN
OF MIDDLE AGE**

Mrs. Wilson's Experience a Guide to Women Passing through the Change of Life

Hamilton, Ontario.—"I have taken several bottles of Lydia E. Pinkham's Vegetable Compound and I cannot say enough of it as I highly of it as I was the Change of Life and all run-down and had no appetite. I was very weak and sick, and the pains in my back were so bad I could hardly move. I got very bad and times and thought I had not a friend on earth. I did not care if I lived or died. I was very nervous, and did not go out very much. A friend advised me to try a bottle of Lydia E. Pinkham's Vegetable Compound, so I did. I am a farmer's wife, and always worked hard until lately, and was in bed for two months. I began to feel like a new woman after the first bottle, and I recommend it with great success, also Lydia E. Pinkham's Liver Pills. I am willing to answer letters from women asking about your medicines, as I cannot speak too highly of them."—Mrs. Emma Wilson, 471 Wilson Street, Hamilton, Ontario.

Sold by druggists everywhere.

The Red Cross appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have been told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian citizen, to contribute generously to its need for funds.

Nation-Wide Appeal Canadian Red Cross Society

SUMMERFIELD & MAYER.

Stony Plain and District.

A fishing party composed of Dr. Walton, A. E. Michael and S. C. Elliot returned to town Saturday from a fishing trip to Rosevear.

Paul Kulak, Niton, made a business trip to Stony Monday, on business.

The dance Monday evening at Rosenbath Hall was quite a success, a large crowd being in attendance.

Hans Mueckle is reported to have sold his Paris rooming house, in Edmonton, and taken in part payment a quarter section at Golden Spike.

Holburn U. F. Local held its regular monthly meeting on Saturday evening last. A report was read by the Secretary, giving an account of the picnic receipts. Some discussion took place on the advisability of holding a dance the evening of Friday, June 17th.

Death of William Goerz

The death occurred at 7 o'clock on the morning of Thursday, June 21, of William, Goerz, son of Mrs. Catherine Goerz. Deceased was in his twenty-first year, and was a popular young man. He had been ailing for a lengthy period, with kidney trouble. He had had a narrow escape from drowning last July in a nearby lake. His father, Carl Goerz, pre-deceased him about a year. He was a member of St. Matthew's Church (Missouri Synod), and also a member of St. Matthew Walther League.

The funeral took place on Saturday. Service was held at his late residence and at St. Matthew Church by Rev. E. Eberhardt. Interment took place in St. Matthew churchyard.

The remains were followed to the grave by a large number of relatives and friends.

Sporting Notes.

Spruce Grove players came to Stony on Friday and gave the local Seniors a game. The play was all one-sided the first half, the score showing the Groves 11 to Stony's 2. The local team bucked up and made a very brilliant showing for a few innings, evening up the score some; the final figures being Groves 15, Stony 14. The redoubtable Herman Loeblich was holding down the first 'leg' for the visitors. The Groves' battery was—C Fuhr & Miller. The local line up: J. Schmitt, Jac Fuhr, R. M. & L. Outway, Rosenau, Herb Wolfe, T. Dick: Battery—D. Moyer & C. Lory.

Two ball teams of local juveniles played Friday afternoon last, Alvin Willie's team winning by a score of 17 to 11. Winners: A. Willie, E. Lory, W. & C. Kruger, W. Carmichael.

Another ball game was played in Stony Sunday afternoon, between Concordia College boys and Stony Seniors. Mr. E. Heichen pitched the first three innings, when he was relieved by Val Mohr, who stayed in the box till the end of the game. The Collegians were away to a good start, at the end of the third innings the score was 9 to 0 against Stony. Stony's good batters brought the score a little more even, the final score being: Concordia 14, Stony 6. Mr. Henry Miller umpired in a very satisfactory manner.

Stony line-up: Schmitt, S. Zucht, Rosenau, E. Uimer, C. Lory, Carl Eiders; Battery—Heichen & Mohr p. Jac Uimer.

Concordia's battery—Machmeier & "Chuck" Wesler p. Henry Treit.

Spruce Grove News

The Groves' ball players went up to Stony the King's Birthday, and won the game.

At the morning service at St. Matthew's Church (Manitoba Synod) Rev. G. Poetzsch, pastor, the infant daughter of Mr. and Mrs. Karl Propp was baptised—Cleone Fern.

Spruce Grove M. D. Councilors met on Monday last, with Reeve I. Sinclair in the chair.

M. Mecklenburg, eyesight specialist, will be at Spruce Grove Wednesday, June 29.

WANTED—Contract for Grubbing and Brushing Apply Stony Plain Restaurant.

Here and There

Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

The development of the muskrat industry five miles south of Revelstoke will be proceeded with further this year. 100 acres having already been fenced in by the Revelstoke Muskrat Fur Breeders' Association.

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettler, Alberta.

Canada's chemical industry recorded an increase of \$7,500,000 in sales during 1926, as compared with the previous year, according to this Dominion Bureau of Statistics. Production by 533 plants was valued at \$120,369,518, as against \$113,000,000 for the previous year.

Ottawa's memorial carillon, to be installed in the new Victory Tower at the Capital, arrived in Canada May 20 on the Canadian Pacific steamship "Balfour." The huge bells, weighing in all about 35 tons, will constitute one of the finest sets in the world. They were cast at the Croydon bell foundry in England.

Word comes from the Engineering Department of the Canadian Pacific Railway that when the Banff Springs Hotel opens on May 15th, for the summer season, the north wing of the building will have been completed and ready for occupation. Next year at the same date the south wing will have been rebuilt, when there will be at the service of the public an hotel of over 600 rooms and baths, as well as its other splendid accommodations.

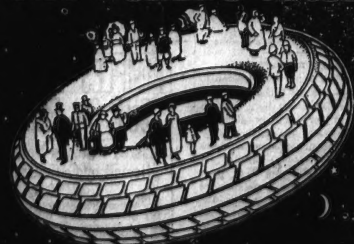

The Fukuoka Wireless Receiving Station, claimed to be the largest of its kind in the East, was opened recently. All wireless messages from America and Europe will now be received there. Work on this Japanese station was begun last August costing over \$300,000. The station is equipped with a transmitting apparatus which, however, will not be used except in an emergency.

During the year 1926 a total of \$45,563,000 was spent on construction and maintenance of all provincial highways in Canada, amounting to completion made by A. W. Campbell, Dominion Highway Commissioner. Of this total \$29,685,000 was spent on construction and \$15,987,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,824.

Representing fifty Nebraskan families who wish to settle in Canada, a delegation headed by Frank Stewart, of North Platte, Neb., conferred with C. A. Van Scoy, superintendent of the colonization department of the Canadian Pacific Railway Company at Winnipeg in order to obtain details regarding suitable tracts of land. The land seekers will go to Calgary with a representative of the department and inspect land in that vicinity. The group proposing to emigrate has ample capital, it is said.

The Folk Song and Handicraft Festival held at the Chateau Frontenac, Quebec, May 20-22, under the auspices of the National Museum of Canada and the Canadian Pacific Railway Company, proved to be perhaps the most outstanding musical event ever held in Canada. Many persons from all parts of the continent gathered at the Ancient Capital to hear the old songs of French Canada and to see the handicraft products that are still produced to a large extent in Quebec despite the modern methods general in other parts of the Dominion.
